FAIRFIELD MEDICAL CENTER SUMMER EMPLOYEES OF THE QUARTER

LANCASTER, Ohio (July 21, 2008) – Fairfield Medical Center (FMC) recognizes and congratulates Fran Lyon, Ken Darst, and Penny Bondurant, for being chosen by their peers as Employees of the Summer Quarter.

Fran Lyon is the Employee of the Quarter for the CEO/CFO/Medical Affairs division. Fran began her career at the center in 1997 and is a resident of Lancaster. Comments from her peers include, “Fran goes above and beyond to make an employee's issue her own. She has the initiative to address their concerns and see them through to completion, regardless how involved. She is willing to stop what she is doing and offer her assistance.” Fran is definitely a valuable employee to FMC. Congratulations Fran!

Ken Darst is the Employee of the Quarter for the Support Services Division. Ken began his career at the center in 1992 and is a resident of New Lexington. One of his peers commented, “Ken was noticed

by someone helping a volunteer who had fallen on the sidewalk and was unable to get up. Ken stopped and helped her up and took her to the ER. Had it not been for Ken who knows how long she should have laid there before someone came by?" Ken is a great asset to FMC. Congratulations Ken!

Penny Bondurant is the Employee of the Quarter for the Patient Services Division. Penny began her career at the center in 1999 and is a resident of Thurston. Her peers really appreciate her friendly and accommodating nature, as one co-worker said, "Penny is sometimes seen at the intake desk where she offers a smile and comforting words to patients and family members. Her approach is professional with a personal touch." Penny goes above and beyond every day, and is a joy to work with. Congratulations Penny!
