FMC PRESENTS \$500 CHECK TO FISHER CATHOLIC FOR HIGH ATTENDANCE AT COLLEGE FAIR

LANCASTER, Ohio (September 29, 2008) – Today Jill Kennedy, Fairfield Medical Center Clinical Documentation Instructor, presented a check for \$500 to Fisher Catholic High School. Matt Roberts, Vice President of Student Council at Fisher Catholic High School, accepted the check on behalf of his school.

Schools in the local community were all part of this promotional incentive to award the school that had the most attendees versus enrollment at the Ice Cream Social & College Fair held at Fairfield Medical Center on September 10, 2008. Tables were set up with various college representatives handing out important information about the college programs they offer. The College Fair was very well attended, with over 80 Fairfield Medical Center employees and approximately 160 students and several parents that attended.

Melony Rarick, Fairfield Medical Center Staff Development Department Clerical Specialist said, “We have received many positive comments from everyone after the College Fair, and couldn’t have asked for a better turnout. I am so glad that Fairfield Medical Center offers these types of events in our community. It is very important for our youth to see what opportunities they have in the future.”

Fisher Catholic High School came in first with a junior/senior enrollment of 123 and had 21% in attendance. Coming in a close second was Amanda Clearcreek with 17% of their enrollment in attendance. Congratulations to Fisher Catholic High School!
