FAIRFIELD MEDICAL CENTER TRANQUILITY GARDEN RIBBON CUTTING

LANCASTER, Ohio (December 4, 2007) – Fairfield Medical Center Foundation was proud to host a ribbon cutting today for the Tranquility Garden located on the second floor of Fairfield Medical Center. Various Fairfield Medical Center employees and community leaders were in attendance today for this momentous occasion. This event focused on the many people who provided their support in the design and construction of such a wonderful and serene place.

Sandy Maholm, Fairfield Medical Center Foundation Director, opened the ribbon cutting with a speech that highlighted how important it was to receive so much support from people and organizations in our community. Sandy commented that, “Before we officially “cut the ribbon” I want to express my gratitude to just a few special people who have made it possible, through their generous gifts: Dave and June Harcum, for their generous monetary donation; Charlie and Diane Eversole, for the little girl sculpture and monetary donation; Design Group, who started the initial layout and design; Claypool Electric, for the electrical work and lighting; Twig 14 and the Medical Staff at FMC - both for their generous monetary donations; and all of those listed on the donor wall. As we celebrate our past and prepare for our future, we dedicate the Tranquility Garden to the use for which it is intended- to welcome our visitors, our patients, our employees, and our physicians to relax and enjoy the peaceful surroundings.”
