## **Internal Medicine Residency Program**

**IM Program Mission:** To train physicians with the best skills and knowledge to deliver the highest quality patient care to our community using the latest evidence-based medicine and clinical experience.

**IM Program Aims:**

1. Provide compassionate, appropriate and effective patient care.
2. Develop a personal commitment to life-long learning.
3. Learn how to effectively communicate and work with patients, patient's families and healthcare teams.
4. Foster the development of skills necessary to be part of the multidisciplinary healthcare team.
5. Develop awareness of the business aspect of healthcare.
6. Cultivate a learning & teaching environment that prepares the resident for their specialty board certification examination.

### **From the desk of Irving Rosenberg, MD, Internal Medicine Program Director at Fairfield Medical Center**

Thank you for considering Fairfield Medical Center as your residency program in Internal Medicine. You can (if you haven't already) read the welcome from our Director of Medical Education, Dr. Troy Hampton, and watch the video describing the program on the Graduate Medical Education portion of the FMC website. I want to share some statistics with you regarding our graduates of the program since its inception in 2012.

- We have an 83% overall graduation rate (3 transferred to specialty programs, 1 non-renewal of contract and 1 dismissal).
- We have an 84% overall board certification pass rate on the 1<sup>st</sup> attempt for those that have taken their board certification exam.
- Out of our first 3 classes of graduates, 5 residents were in the startup of our Hospitalist group at FMC and are still Hospitalists here today. Since then, we have added 1 more resident to this Hospitalist group.
- 6 graduates have attended or are currently attending Fellowships; 1 in Osteopathic Manipulative Medicine, 2 in Nephrology, 2 in Rheumatology and 1 in Sleep Medicine.
- 16 graduates have stayed in Ohio and are working in outpatient clinics or as Hospitalists. 1 of these graduates has returned to help out in the IM Continuity Clinic for the IM residency program.
- The Internal Medicine Residency Program has had 33 graduates to date; 48% have stayed in Ohio to practice medicine, with 3 still in Fellowship programs.

We are excited about the prospect of having you join our team at Fairfield Medical Center!
