

Fairfield Medical Center

Fairfield Medical Center supplies eight students per academic year with a Student Stipend at the completion of their audition rotation with Fairfield Medical Center. This is a competitive scholarship for four Internal Medicine & four Family Medicine students auditioning with our program. Students would apply through our GME website and designate which program they would like to audition for (IM/FM). Each student accepted to the program would be awarded a \$450.00 stipend to be used on Housing/food/travel expense, to help lessen the burden on auditioning residents interested in our program. We also will provide formal mentorship and informal meetings with representatives from the residency program. There would be an expectation that each student accepted into the program would participate in a formal interview for the program in which they are auditioning.

Program Timeline:

Call for Applications: April 2023

Awardee Selection: End of May 2023

Notifications of awards: June 2023
