

Department(s): Employee Health; Human Resources; Laboratory

Policy Referenced: Drug-Free Workplace

Retired Date:

Work Instruction: Pre-employment Testing for Drug Free Workplace

Supersedes: Drug-Free Workplace policy 04/08/2019

OBJECTIVE

In an effort to maintain a drug- and alcohol-free environment, all applicants who receive a conditional offer of employment are tested as part of the pre-employment process.

WORK INSTRUCTION

1. Screening
 - A. Applicants are informed of the test prior to the screening. They are informed that follow-up tests may be required.
 - B. Those persons refusing or failing to cooperate, in any way, with the testing and collection procedure will have the offer of employment withdrawn. Human Resources will notify the applicant.
2. Applicants who test positive are informed that they have failed the health screening, and have the offer of employment withdrawn. Human Resources will notify the applicant. If the applicant requests the reason for the failure of the exam, Human Resources will provide the necessary information. Such applicants may reapply and be reconsidered for employment upon:
 - A. Submitting evidence of successful completion of treatment,
 - B. Submitting evidence of drug-free status from another approved organization (example: Testing program from the State Board of Nursing), and
 - C. Submitting to and passing another drug test
3. It is critical that any information regarding drug tests be handled confidentially to the extent possible without preventing the use of the information for appropriate employment purposes. The results of any drug test are only given to those with a need to know, as defined below.
 - A. Chain of Custody procedures are followed in all cases.
 - B. Specimens are collected by designated laboratory.
 - C. All test results are maintained in Employee Health.
 - D. Only the report will be sent to Human Resources.
