**- Block Rotation Schedule Key:**

All block diagram PGY - years consist of 13 four-week blocks.

Site 1 - Fairfield Medical Center

Site 2 - Assem Houssein MD - Endocrinology Office

Site 3 - Infectious Disease Consultants

**- Osteopathic Experiences:**

\* Osteopathic education/experience

# Osteopathic clinic

+ Osteopathic didactics lab

**- Clarifying Notes:**

~ Residents have the option to do an elective away rotation during their PGY-2 or PGY-3 year, with Program Director approval, that could count towards an outpatient experience. The 'variable' of outpatient percent in the outpatient experience section will be dependent on the elective chosen.

~ In accordance with our Internal Medicine PTO Policy, last revised 7/26/24:

Paid time off (PTO) may be taken throughout the academic year and is any scheduled, planned or pre-approved PTO requested in advance by each resident, equaling five days of weekly consecutive PTO. These vacation periods may not accumulate from one academic period to another.

Annual vacations must be taken the year of service for which the vacation is granted. No vacation periods may be concurrent and the resident does not have the option of reducing the total time required for residency by relinquishing vacation time.

- All residents receive a total of twenty days of PTO per academic year. Fifteen days are scheduled at the start of an academic year, leaving five days for emergency, illness and/or calamity PTO days.

- All requests for PTO will be approved or denied at the discretion of the Program Director.

**- Specialty Rotations are any of the below rotations, completed by the residents at the respective designated site to fulfill the ACGME requirement of 10 months inpatient and 10 months outpatient.**

- |                      |                                      |  |
|----------------------|--------------------------------------|--|
| - Cardiology         | - Geriatrics                         | - Outpatient General Internal Medicine |
